

## PRIVATE LESSONS INSTRUCTOR LIST 2019 - 2020 YEAR (Updated Monthly - Last Update: 101919)

In order for a student to reach their maximum potential private lessons are essential in the development of progressive skills and healthy habits. We encourage you to consider taking private lessons. There is no better way to improve on your instrument than devoted one-on-one weekly study with someone who specializes in your specific instrument. If you have any questions or this list needs updating please email a Director.
